OF EMERGENCY SERVICES

SITUATION SUMMARY

911 Outage, Stockton Area, San Joaquin County (New/Final)

On 07/15/15 at 0225 hours, the CSWC was notified by CA 911 Branch advised of an outage in the Stockton area due to a fiber cut. The cut fiber line was located and as of 0900 hours, repairs are being made by AT&T. Original described as a localized event affecting the San Joaquin County Sheriff's 911 service, the impact was felt in a much larger area encompassing San Joaquin, Stanislaus, Merced, and Mariposa Counties.

- Cause is a fiber cut in Stockton on South McKinley Avenue, believed to be vandalism (possible copper cable theft)
- Calls were rerouted to alternate PSAPs
- Conference calls were held by Merced County OES to provide status and updates (1100, 1400 and 1600 hours)
- At 1600 hours, CA 911 reports that AT&T is splicing the new fiber optic cable and expects to have full service restored at 1830 hours.
 - PSAPS are coming back into full service and are being contacted by AT&T for comm checks.
- At the time of the 1600 conference call most agencies were back up and functional for 911 and ANI/ALI
- There are no requests for assistance or unmet needs at this time
- This is the final report on this incident unless circumstances warrant

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- DTF Drought 07/15/15 is attached

Weather of Concern

Hurricane Dolores has strengthened to a major hurricane and should remain so for the next 24 hours or so before beginning to dissipate. The current National Hurricane Center forecast has this system pushing off the west-northwest going into the weekend, though it looks to stay well west of Baja. This track is significant and could bring moisture mainly into the southern half of the state late this weekend and into early next week. Central California could see some impacts from this, with some increased monsoonal moisture moving into the area, though this will be focused more toward the Sierras and Kern County.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Key Points

07/16 – 07/22

Thursday-Friday

- Dry with near to slightly above normal temperatures
- No significant impacts expected

Saturday-Monday

- Possibility of moisture from Hurricane Dolores moving into southern half of state
- Cooler temperatures statewide
- A chance of showers and thunderstorms, mainly south and mountains
- Some thunderstorms may produce locally heavy rain and flash flooding

Tuesday-Wednesday

- Drying and warming trend
- No significant impacts expected

California OES Impact Threat Matrix

July 16-22, 2015

DAY/THREAT	THU	FRI	SAT	SUN	MON	TUE	WED
Fire Weather							
Winds							
Extreme Cold							
Snow							
Heavy Rain/ Flash Flooding			Mainly So Cal	Mainly So Cal

|  | High Threat |
|  | Moderate Threat |
|  | Slight Threat |

Days 1-3 Precipitation Forecast

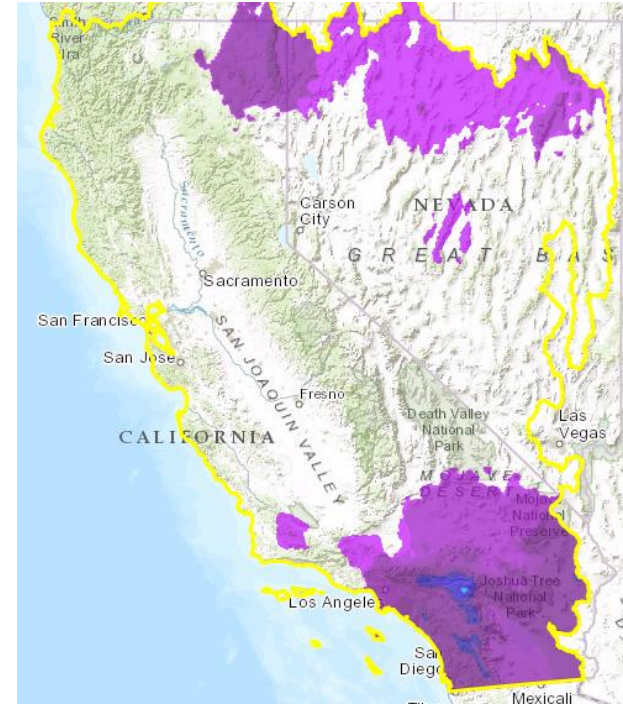

Precipitation (inches)

Thursday

Friday

Saturday

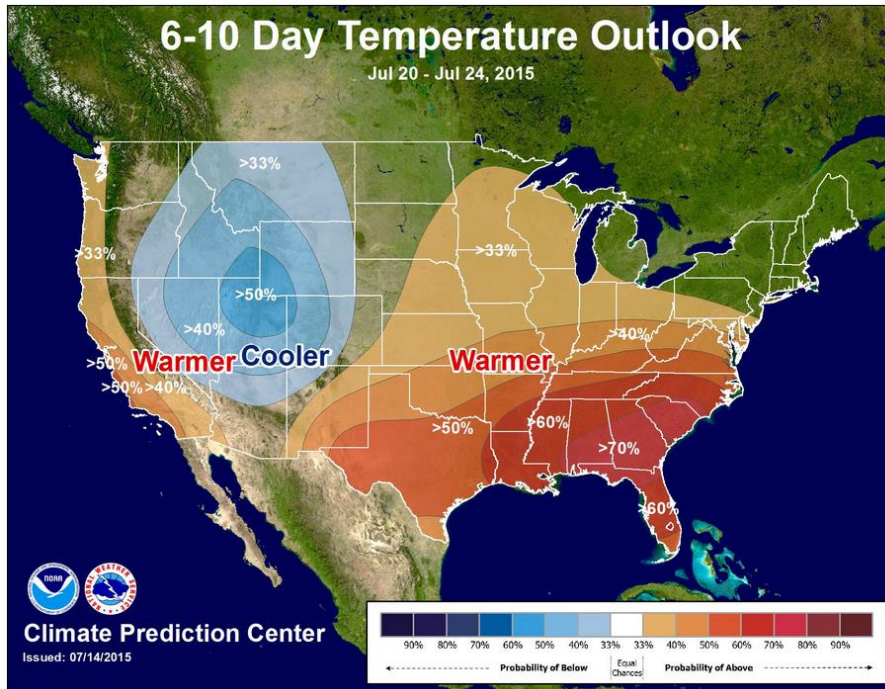

Mostly dry except up to .20 inches possible over SoCal on Saturday

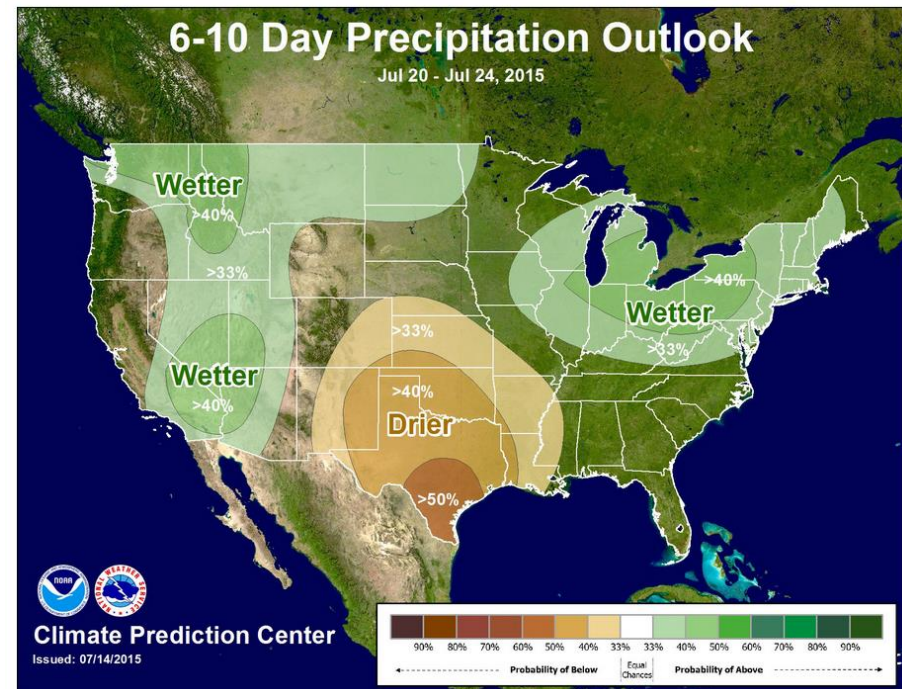

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

6-10 Day Outlook

Temperature

Precipitation

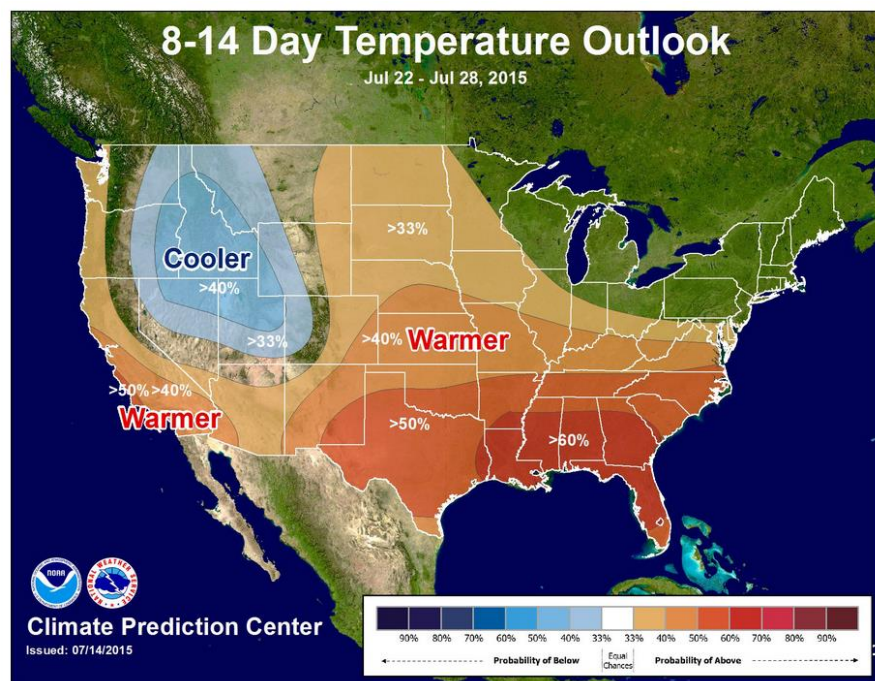

Good chance of above normal temperatures. Equal chances of being above or below normal precipitation in northern and central California. Good chance of wetter than normal in southern California.

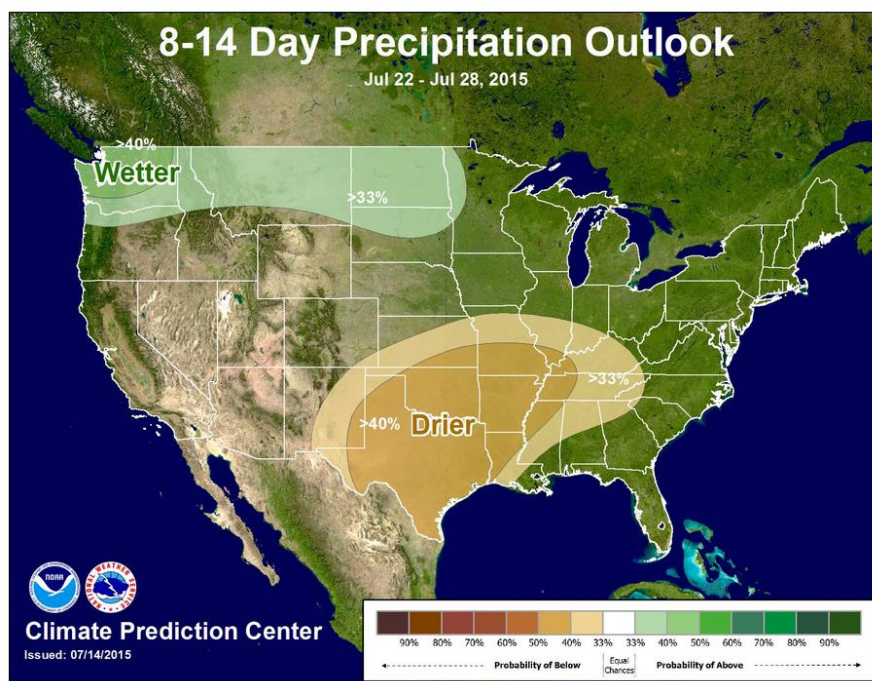

8-14 Day Outlook

Temperature

Precipitation

Good chance of above normal temperatures. Equal chances of being above or below normal for precipitation.

WEATHER

WEATHER SYNOPSIS BY REGION:

Northern Region

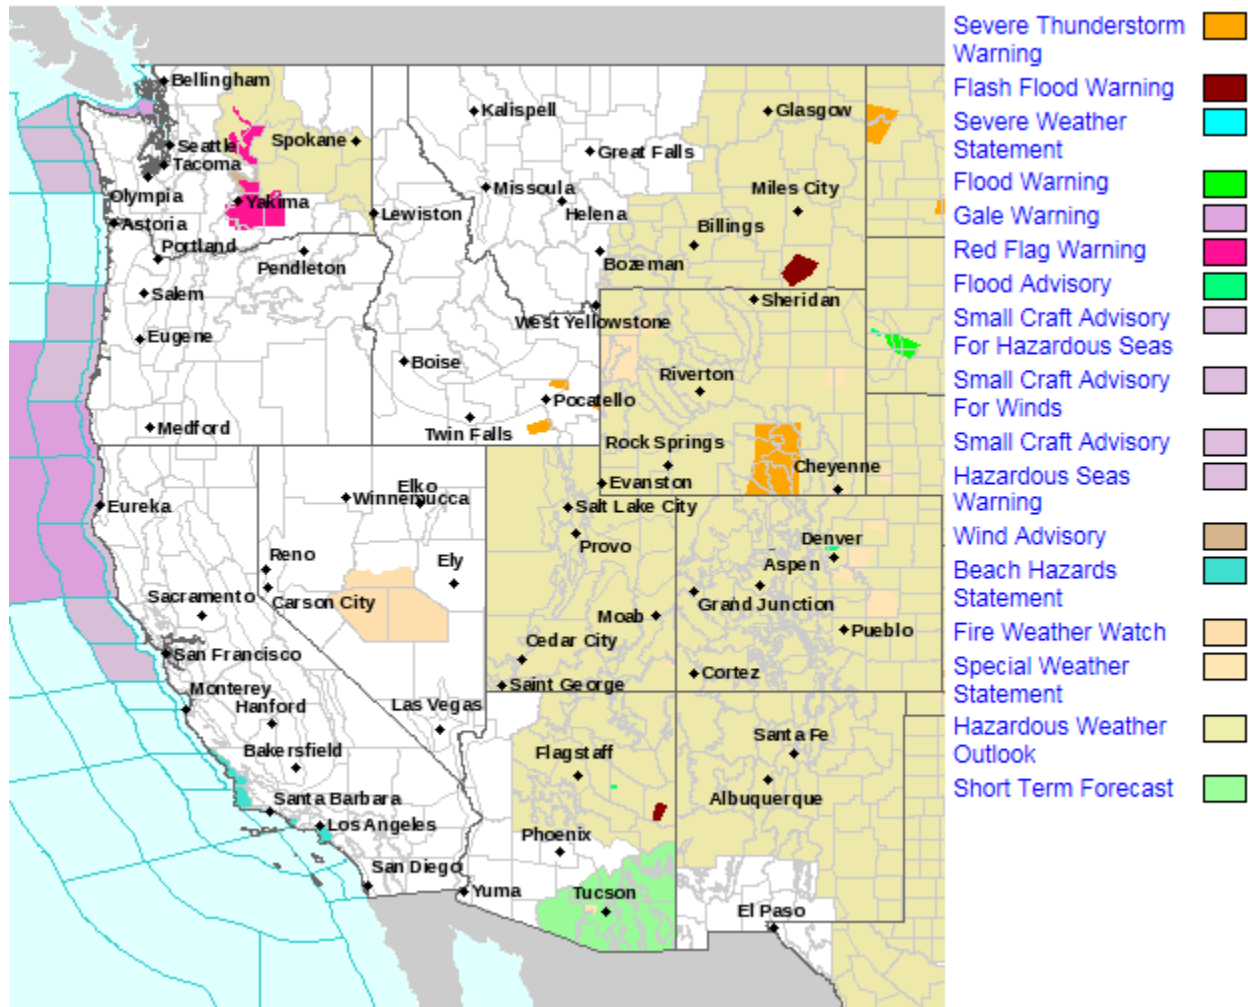

The second in a pair of very weak disturbances moved east out of the Northern Operational Area overnight. It triggered a weak late-day thunderstorm over the Trinity Alps, which yielded only two lightning strikes. The upper maps don't change significantly over the next three days, with moderate high pressure aloft slowly adding a bit more strength. Northern California will be under a mainly northwest flow aloft, between much stronger high pressure out in the Northeast Pacific and low pressure troughs extending southwest to northeast from South-Central Oregon up toward Alberta. For the Northern Operational inland area weather this means mostly fair skies, with scattered p.m. cumulus in the north and east, but no thunderstorms expected. We will see the warming trend continue in most areas through Friday, and minimum humidity lowering back down to 8-22% ranges inland. Winds in a.m. hours will range from light and variable to northwest-northeast at 5-13 mph across the northern third of the area. Afternoon winds will vary from light local winds, to southwest to northwest at 7-17 mph in most typically breezier locations. The latest Global Forecast System model runs no longer bring a significant amount of moisture from Hurricane Delores this direction, as the model now forecasts it to go west, away from Baja this weekend, rather than northwest and parallel. This feature will continue to be watched closely though, to see if the model settles in on the drier or more moist solution by Thursday.

Southern Region

A weak trough will remain parked along the West Coast the rest of the workweek, resulting in widespread stratus coverage along the coast and near to slightly below normal temperatures. The marine layer is a bit deeper this morning, which will keep skies cloudy longer this morning. Otherwise, expect sunny skies through Friday with highs in the 70s along the coast, to 90s in the valleys and 105-110 in the low deserts. Southwest winds of 15-25 mph with gusts to 40 mph will be possible each afternoon across the Kern County Mountains, Antelope Valley, Banning Pass and the eastern Cleveland National Forest. Minimum relative humidity will drop into the teens in the mountains above 6,000 for six to eight hours each afternoon. This weekend some subtropical moisture will be steered into Southern California. Mostly cloudy and much more humid weather can be expected Saturday and Sunday over the southern part of the state along with warmer temperatures. Highs will be in the upper 90s in the valleys by Sunday with very warm overnight temperatures into early next week. Isolated showers and wet thunderstorms will also be possible near the higher terrain, but the cloud cover and stable conditions will hinder storm development. Most, if not all, storms are now expected to remain over Southern California with skies remaining mostly sunny north of Kern County. A return of southwest flow is expected early next week which will push the subtropical moisture east of the region. Temperatures will likely drop back to near normal readings by next Tuesday or Wednesday.

STATE WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

NORTHERN OPERATIONS FIRES

Kasson, Vegetation Fire, San Joaquin County (Final)

Location: Kasson Road at Critchett Rd

Jurisdiction: Tracy FD and Lathrop-Manteca FD, LRA

Start Time: 07/14/15, 1315 hours

Per CAL FIRE as of 07/15/15 at 0918 hours:

- 143 acres grass and brush, 100% contained
- All CAL FIRE resources released
- This is the final report on this incident

SITUATION SUMMARY

SOUTHERN OPERATIONS FIRES

Auburndale, Vegetation Fire, Riverside County

Location: Rincon Street and Auburndale Street

Jurisdiction: LRA

Start Time: 07/15/15 at 1520 hours

Per CAL FIRE as of 07/15/15 at 1808 hours:

- 30 acres grass and brush, 25% contained
- Forward rate of spread has been stopped
- Evacuation order has been lifted
- Structure threat has been mitigated
- Continued commitment of CAL FIRE ground resources
- A Fire Management Assistance Grant (FMAG) has been submitted to Cal OES and is currently under review.

Lake, Vegetation Fire, San Bernardino County

Location of Incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: 06/17/15 at 1600 hours

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 07/14/15 at 1751 hours:

- 31,359 acres, 98% contained
- Patrol and monitor. Extinguish visible smokes. Perform suppression repair
- Resources: 180 personnel assigned

Medical/Health

- Until Further Notice - The Mojave Desert Air Quality Management District has issued a Smoke Advisory for Yucca Valley and Morongo Valley due smoke from the nearby Lake Fire.

Proclamations

- San Bernardino County updated their proclamation of a local emergency with a request for a Governor's proclamation and a Presidential Declaration of a Major Disaster. On 7/10/17 at 1320 hours, the CSWC received San Bernardino's ratified proclamation for the Lake Fire

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 58 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

New Cal OES Missions

2015-LAW-14193 7/15/2015 0626 hours: IERCC reported a Delorme In Reach activation at 36° 42' 48" by -118° 22' 19", which plots to the Desolation Wilderness area of Pacific Coast Trail in Kings Canyon National Park, Tulare County. The registered owner of the device is Thomas Baksh. Baksh reported that he had located a subject in medical distress, a possible heart attack. Kings Canyon National Park Rangers advised. **Update: 1159 hours,** Kings Canyon rangers responded and evacuated the injured subject and transported him to Bishop for transfer to a ground ambulance. **Mission Closed**

TRAINING and EXERCISES

Eastern Sierra Communications Interoperability Exercise

- Per the Cal OES Southern Region Duty Officer: The Inyo and Mono County Sheriff's Departments in conjunction with the California State Office of Emergency Services, Southern Region, are hosting the first Eastern Sierra Communications Interoperability Exercise and Showcase on July 15, 2015 at 0800 hours at the Eastern Sierra Tri-County Fairgrounds, 601 Fairgrounds Drive, in Bishop, California.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
